About Us

Indonesia's Finest Coffee

We are proud to be a trusted coffee exporter from Indonesia, specializing in both green beans and roasted coffee to meet the demands of global markets. With plantations and sourcing partners across renowned regions such as Java, Sumatra, Sulawesi, and Bali, we are committed to delivering only the highest quality coffee. Our dedication to excellence is evident in every stage of production — from sustainable farming and ethical sourcing to meticulous processing and packaging.

Indonesia's fertile soils produce a wide range of beans — Arabica, Robusta, Liberica, and Excelsa — each with distinct flavors from bold and earthy to smooth and aromatic. At Aksara Exports, we deliver not just coffee, but Indonesia's authentic taste, with consistency, quality, and global appeal in every cup.
